

August 1, 2022

## Julie A. Clennon

Department of Environmental Sciences, Emory College of Arts and Sciences  
E514 Math & Science Center, 5th Floor  
400 Dowman Drive, Atlanta, GA 30322  
Tel: (404)727-727-6314; Fax: (404)727-4448; e-mail: [jclenno@emory.edu](mailto:jclenno@emory.edu)

---

### Degrees & Postdoctoral Training

---

- 2001 – 2006 **Ph.D., Veterinary Pathobiology**  
University of Illinois, Urbana-Champaign, IL, USA  
Dissertation: ‘Eco-Epidemiology of *Schistosoma haematobium*: Spatial and Temporal Heterogeneity of Infection and Snail Dispersal in Msambweni, Kenya’
- 1999 – 2001 **M.Sc., Community Health – Epidemiology**  
University of Illinois, Urbana-Champaign, IL, USA  
Thesis: ‘Temporal and spatial patterns of pediatric tuberculosis in Illinois: 1993-1999’
- 1992 – 1996 **B.Sc., Anthropology, Minor: Biological Sciences**  
Northern Illinois University, DeKalb, IL, USA

#### Postdoctoral Training:

- 2010- 2011 **Postdoctoral Researcher.** Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA
- 2008- 2013 **Postdoctoral Research Fellow.** Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2006-2008 **Postdoctoral Research Fellow.** Malaria Research Institute, Department of Molecular Microbiology and Immunology, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD

---

### Advanced Training

---

- 2021 One UN Climate Change Learning Partnership. Virtual Specialized Modules:  
● Cities and Climate Change ● Children and Climate Change ● Human Health and Climate
- 2020 Emory College Online Teaching Strategies (June 10-July 5, 2020)
- 2009 Introduction to Bayesian Disease Mapping. Andrew Lawson, Medical University of South Carolina.
- 2008 Larval Mosquito ID Course. The Georgia Division of Public Health, Centers for Disease Control and Prevention, and the North Carolina Department of Environment & Natural Resources. June 9-10, Atlanta, GA.
- 2006 ESRI Workshops & Courses: ● Exploring the VBA Environment ● Working with Variables and Functions in VBA ● Working with Forms in VBA ● Understanding Branching and Looping in VBA ● Introduction to Visual Basic 6

- 2005 Application of disease models to long-term population data Workshop sponsored by the NSF-IGERT, PRIMES, the Department of Biology and the Department of Microbiology, Immunology & Pathology at Colorado State University, Fort Collins, Co.
- 2004 Satellite Imagery Processing – Brad Lobitz, NASA-CHAART, CA.
- 2003 CSISS Workshop - “Accessibility in Space & Time: A GIS Approach”. Center for Spatially Integrated Social Science. Columbus, OH
- 2002 ICTDR ArcPad Pocket PC Course. NIH-ICTDR, NASA-CHAART, and ESRI Health & Human Services Solutions Group. Denver, CO

---

## Work Experience

---

- 2022- present **Senior Lecturer.** Department of Environmental Sciences, Emory University, Atlanta, GA
- 2020- 2022 **Instructor.** Department of Environmental Sciences, Emory University, Atlanta, GA
- 2018- 2021 **Contractor.** Workshop development & teaching. Department of Communicable Diseases, Pan American Health Organization, Washington D.C.
- 2013- 2020 **Research-Clinical Track Instructor** (2019-2020 100% FTE, 2015-2019 75-80% FTE, 2013-2015 50% FTE) Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2018, 2021 **Adjunct Instructor.** Department of Environmental Science, Emory University, Atlanta, GA
- 2009- 2013 **Visiting Instructor** (10% FTE) Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA

---

## Other Affiliations

---

- **Teaching Faculty.** Master’s in Development Practice, Laney Graduate School, Emory University
- **Faculty.** Training in Advanced Data Analytics and Computational Sciences to End Drug-Related Harms - National Institute on Drug Abuse
- **Core Investigator.** Center for Global Safe Water, Rollins School of Public Health, Emory University

---

## Teaching Experience

---

<sup>+</sup> denotes teaching recognition   <sup>++</sup> denotes teaching recognition more than once   <sup>\*\*\*</sup> Developed or redeveloped

### ***Undergraduate Graduate Courses***

- 2021-present Instructor: ENVS260– Quantitative Techniques for Environmental Sciences, Department of Environmental Sciences, Emory University, Atlanta, GA
- 2021-present <sup>\*\*\*</sup>Instructor: ENVS285– Environmental Epidemiology, Department of Environmental Sciences, Emory University, Atlanta, GA
- 2021-present <sup>\*\*\*</sup>Instructor: ENVS385/485– Vector Ecology & Control, Department of Environmental Sciences, Emory University, Atlanta, GA

- 2020 Instructor: ENVS 140 – Environmental Change & Health, Department of Environmental Sciences, Emory University, Atlanta, GA
- 1999-2000 Teaching Assistant (primary lecturer): CHLTH 143 - Drug Use & Abuse Department of Community Health, University of Illinois, Champaign, IL

### **Graduate Courses**

- 2021 \*\*\*Instructor: EH585 – Vector Ecology & Control, Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA
- 2020, 2022 \*\*\*Instructor: ENVS 521/MDP521 – Natural Resource Management, Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA
- 2020 Instructor: MDP 597R-2 Spatial Analysis
- 2019-2020 Instructor: EH 583/ENVS 585 – Spatial Analysis in Disease Ecology, Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA
- 2015-2020 \*\*\*Instructor: INFO 532 – Geographic Information Systems for Public Health, Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2015-2020 \*\*\*Instructor: INFO 560 – Advanced Geographic Information Systems, Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2009-2020 ++, \*\*\*Instructor: INFO 530 - Geographic Information Systems, Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2018 \*\*\*Co-Instructor: INFO 597R – Directed Study: Machine Learning, Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2015 \*\*\*Instructor: INFO 560 – Concepts and applications of Geographic Information Systems in Epidemiology, Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA
- 2014- 2016 \*\*\*Instructor: MDP585 - GIS for development practice. Laney Graduate School, Master’s in Development Practice Program, Emory University, Atlanta, GA
- 2013-2018 Lab Co-Instructor: EH 583/ENVS 385 – Spatial Analysis in Disease Ecology, Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA
- Spring 2005 + Teaching Assistant (Lab Instructor): VP 560 - Spatial Epidemiology Department of Veterinary Pathobiology, University of Illinois, Urbana, IL
- Fall 2001 + Teaching Assistant (Lab & Recitation Instructor): VP 391 - Biostatistics Department of Veterinary Pathobiology, University of Illinois, Urbana, IL

### **Workshops**

- 2021 Taller virtual de capacitación a distancia para apoyar el proceso de construcción de los escenarios operativos para el control de *Aedes aegypti* en Puerto Rico. Pan American Health Organization. Washington D.C., Online, September 2021.
- 2021 Instructor: Sub-regional training in the development of entomological risk stratification maps for *Aedes spp* and development of operational control plans based on risk scenarios. Pan American Health Organization. Washington D.C., Online, February 22-26, 2021.
- 2019 Instructor: Workshop for the Use of Spatial Epidemiological and Entomological Data for *Aedes* Control, Pan American Health Organization (PAHO/WHO) Regional Office, Suriname. Paramaribo, Suriname May 13-17, 2019
- 2019 Instructor: Taller de capacitación para la elaboración de mapas de riesgo para apoyar el control focalizado de *Aedes aegypti* en áreas urbanas, Pan American Health Organization, Washington D.C., In: San Jose, Costa Rica. Mar 11-15, 2019

- 2016 Instructor: GIS for Global Epidemiology, Geography and Geospatial Science Working Group, CDC University: January 29, 2016
- 2016 Instructor: Sistemas de Información Geográfica y Análisis Espacial en Salud Pública, Universidad de Yucatan Merida, Mexico, June 2016
- 2010 Instructor: Quantum GIS, Ministry of Public Health, Accra, Ghana, Fall 2010
- 2007 Speaker. Comisión Nacional de Actividades Espaciales, Córdoba, Argentina, Advanced Training School in Landscape Epidemiology. May 31.
- 2002 Instructor: Geographic Information Systems and Remote Sensing Workshop for Malaria and Schistosomiasis Researchers, ICIPE, Nairobi & Mombasa, Kenya, June 2002

### ***Formal Tutoring***

- 1999 Tutor: STAT 208 - Basic Statistics, BIOS 308 - Cell Biology, Peer Assisted Learning Center, Northern Illinois University, DeKalb, IL. Spring 1999.

---

## Mentoring & Advising

---

2022- present **Undergraduate Internship Coordinator**

### **Undergraduate Mentoring (4)**

- 2021 Christie Jones, Co-mentor, The Spatial Distribution of rabies in Vampire Bats, Costa Rica; Capstone
- 2017 Zavia Epps, Co-mentor REU summer experience, National Science Foundation
- 2017 Margaret Newton, Co-mentor REU summer experience, National Science Foundation
- 2022 Becky Cloud, Honor's Committee – Biology

### **Graduate Mentoring**

#### ***MSc Committee Member (2)***

- 2022- *in progress* Faith Breen (ENVS)
- 2022- *in progress* Jack Galanek (ENVS)

#### ***Capstone Mentor (4)***

- 2019 Matt Derrico (GEH) Assessing the Potential Accessibility to Public Latrines in Accra.
- 2019 Wenjie Mei (INFO) Spatial Clustering of Enteric Infections Among Young Children in Ifanadiana district, Madagascar
- 2018 Emily Ananthset (EH) Weather Patterns Associated with Dengue Spatial Distribution in Thailand
- 2017 J. Alex Edwards (INFO) HIV and Tuberculosis in South Africa

#### ***Capstone Co-Mentor (2)***

- 2020 Stefano Rainiero Rosillo (EH) Geospatial Analysis of Dengue Virus (DENV) Seroprevalence in Mérida, Mexico (2015-2016): Development of a Baseline DENV susceptibility landscape.
- 2016 Kristen Stanfill (EH) Community Outreach and Mapping Regarding Green Infrastructure Implementation in the Proctor Creek Watershed.

#### ***Capstone Committee/Reader (2)***

***(Note: INFO students do not take a formal class but have a mentor & committee/reader member)***

- 2019 Swati Sharma, MPH (INFO) Identifying solutions to challenges associated with the adoption of an automated

Workforce Allocation Optimization (WAO) tool

2018 Christian Enriquez, MPH (INFO) Spatial Weights Matrices and Their Applications

***Safe Water and Sanitation (CGSW) Mentorship (3)***

2016 Em Maier MPH (GEPI) *CGSW Mentor/Advisor*

2012 Stephanie Gretsch (GH) *Field Advisor*. Mapping water Drains in Four Neighborhoods in Accra, Ghana

2011-12 Amanda Schaupp, MPH (EH) *GIS Mentor*. Center for Global Safe Water, Rollins School of Public Health, Emory University, Atlanta, GA: The Flooding of Urban Communities in Accra, Ghana

***MPH/MSPH Committee Member (17)***

2021 Micah Augusma, MPH (GH) The Spatial Ecology of Larval Mosquitoes in Haiti

2020 Shelby Lyons, MPH (EPI) Spatiotemporal Distribution of Visceral Leishmaniasis with Consideration of Environmental Risk Factors, Minas Gerais, Brazil, 2012-2018

2019 Shaiana Oliveira, MPH (GEH) Analysis of Environmental Patterns and Leprosy in Minas Gerais, Brazil Using Spatial Statistics

2019 Nishanth Parameswaran, MPH (EPI) Spatial Distribution of Leprosy and Schistosomiasis and the Role of Coinfection in Leprosy Disease Severity in Minas Gerais, Brazil

2019 Cynthia Jones, MPH (EPI) Leprosy in the Wake of Helminth Immunomodulation: A study on the impact of deworming on leprosy outcomes in Vale do Rio Doce, Brazil

2019 Marissa Cummings, MPH (EH) Rodent Plague Surveillance and Species Diversity – Understanding Environmental Conditions Associated with an Epizootic Event, 2014 – 2018, Yosemite National Park, California

2019 Claire Hamaji, MPH (EH) A Spatial Analysis of Polybrominated Biphenyl Exposure in Michigan

2018 Megan Peterson, MPH (EPI) Spatial patterns of extensively drug-resistant tuberculosis and associations with sociodemographic factors in Durban, South Africa

2018 Adan Oviedo, MPH (EPI) Spatial Cluster Analysis of *P. vivax* and *P. malariae* Exposure Among Haitian School Children Sampled Between 2014 And 2016

2018 Mary (Lydia) McAliley, MPH (EH) Greenspace and Mortality in Metropolitan Atlanta, Georgia

2017 Remy Landon, MPH (EH) Urban Greenness and Birth Outcomes in Atlanta, Georgia

2017 Jessica Stephens, MPH (EPI) Spatial Associations of Leprosy and Schistosomiasis and Potential effects of this co-endemic helminth on the transmission of leprosy in Minas Gerais, Brazil

2017 Forest Altherr MPH (EPI) Integrating a Geographic Information System to Explore the Effect of Water, Sanitation, and Hygiene on Trachoma at Aggregate Spatial Scales

2017 Charles Haress, MPH (GH) Using Wearable GPS Technology to Quantify Occupation-Related Human Movement in a Remote Riverine Region of Hyperendemic Malaria Transmission

2016 Bryant Jones, MSPH (EH) Environmental Drivers of Rocky Mountain Spotted Fever in Tennessee

2013 Stephanie Gretsch, MPH (EPI) Quantification of Exposure to Open Drains in Low-Income Neighborhoods in Accra, Ghana: Implications for Microbial Risk Assessment

2011 Hillary Superak, MPH (BIOS) Analyzing Batting Patterns of Major League Baseball Players for Advance Scouting Reports: Using R to Generate High-Level Spatial Plots of PITCHf/x Data

***Domestic PhD Student Mentoring for Projects (1)***

2020-2021 Ian Hennessee, MPH (PhD Student) Gangarosa Department of Environmental Health, Rollins School of Public Health, Emory University. For: Georgia Department of Public Health-Emory University COVID-19 Response Collaboration.

***PhD Committee Member (2)***

2020-present Xorla Ocloo, PhD (PBEE) The utilization of azolla as fertilizer.

2016 David Beredes, PhD (EH) Taking care of the backside: Aspects of the sanitation chain beyond the household toilet and their associations with fecal contamination in the public and private domains and enteric infection risk in children.

## **International Doctoral Candidate & Doctoral Student Mentoring (9): Geographic Information Systems & Spatial Analyses**

§ denotes International advisee co-mentored with Dr. Uriel Kitron

\* denotes International advisee co-mentored with Dr Gonzalo Vazquez Prokopec

2018-2019	*Amanda Murphy, MSc (PhD Candidate) School of Biological Sciences, The University of Queensland, Brisbane, Australia
2018	§ Raqual Lima, MSc (PhD Student) in Epidemiology, Institute of Collective Health, Federal University of Bahia (UFBA), Salvador, Bahia, Brazil
2018	§ Vanio Mugabe, MSc (PhD Student) in Epidemiology, Institute of Collective Health, Federal University of Bahia (UFBA), Salvador, Bahia, Brazil
2017-18	§ Janeth Pérez García (PhD Candidate), Colegio Santa Ines, Colombia
2016-17	§ Igor Paploski, DVM, MPH (PhD Candidate) in Epidemiology, Institute of Collective Health, Federal University of Bahia (UFBA), Salvador, Bahia, Brazil
2016-17	§ Mariana Kikuti, DVM, MPH (PhD Candidate) in Epidemiology, Institute of Collective Health, Federal University of Bahia (UFBA), Salvador, Bahia, Brazil
2017	§ Flávia Barros (PhD Student), PPGSAAM-Programa de Pós-Graduação Saúde Animal na Amazônia
2017	§ Francisco Sampaio Junior (PhD Student), PPGSAAM-Programa de Pós-Graduação Saúde Animal na Amazônia
2015-16	§ Oscar Quirós Gómez (PhD student), Grupo de Epidemiología y Bioestadística, Facultad de Medicina. Universidad CES, Medellín, Colombia.

## **Faculty & Professional Mentoring**

***K-Awards (2):*** Geographic Information Systems and Spatial Analyses

2015-2016	Neela Goswami, MD (K-award), School of Medicine, Emory University, Atlanta, GA
2014-2015	Janet Cummings, PhD (K-award), Department of Health Policy and Management, Rollins School of Public Health, Emory University, Atlanta, GA

## ***Humphrey Fellow (1)***

2017-2018	Irma Burjanadze, MD. National HIV/AIDS program Coordinator. National Center for Disease Control and Public Health. Tbilisi, Georgia
-----------	---

## **Advisory Boards (2)**

2020-1	Executive Steering Committee, GDPH/Emory COVID-19 Partnership
2016	Bioko Island Malaria Control Project (BIMCP)

---

## Teaching Recognition & Awards

---

2016	<b>Honorable Mention: Biostatistics Teaching Award.</b> Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University.
2014	<b>Honorable Mention: Biostatistics Teaching Award.</b> Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University.
Spring 2005	<b>University of Illinois “Incomplete List of Teachers Ranked as Excellent” –</b> Graduate Teaching Assistantship: Spatial Epidemiology
Fall 2001	<b>University of Illinois “Incomplete List of Teachers Ranked as Excellent” –</b> Graduate Teaching Assistantship: Biostatistics

## Public Health Organization Training Contracts

---

- 2020 **Clennon J.** Integrated vector management (IVM) strategy strengthened and implemented as part of efforts to control the spread of arboviral diseases - Conduct subregional training in the development of entomological risk stratification maps for *Aedes spp* and development of operational control plans based on risk scenarios. Pan American Health Organization. Washington D.C. \$7,536.
- 2019 **Clennon J.** Temporary Advisor. Workshop for the Use of Spatial Epidemiological and Entomological Data for *Aedes* Control. Pan American Health Organization. Paramaribo, Suriname. \$750
- 2018-2019 **Clennon J.** Taller de capacitación para la elaboración de mapas de riesgo para apoyar el control focalizado de *Aedes aegypti* en áreas urbanas (Conducted in San Jose, Costa Rica), Pan American Health Organization. Washington D.C. \$9,000
- 2016 **Clennon J.** GIS for Global Epidemiology, Geography and Geospatial Science Working Group, CDC University. Atlanta, GA: \$1,000.

## Public Health Organization Training Documents

---

1. Métodos de estratificación de riesgo para apoyar el control focalizado de *Aedes aegypti* en áreas urbanas” (“A description of the advantages and disadvantages of spatial risk stratification to support the targeted control of *Aedes aegypti* in urban areas”). 2019. Programa Regional de Entomología en Salud Pública y Control de Vectores Organización Panamericana de la Salud/OPS Organización Mundial de la Salud/OMS.
2. Taller de capacitación para la elaboración de mapas de riesgo para apoyar el control focalizado de *Aedes aegypti* en áreas urbanas” (Workbook: The development of risk maps to support the targeted control of *Aedes aegypti* in urban areas). 2019. Programa Regional de Entomología en Salud Pública y Control de Vectores Organización Panamericana de la Salud/OPS Organización Mundial de la Salud/OMS

## Invited Moderator / Invited Speaker

---

### Invited Moderator:

- 2010 Discussion Panel Moderator. “Foul Water Fiery Serpent”. Cielo Productions & Emory's Global Health Organization. September 14<sup>th</sup>.

### Invited Speaker:

- 2021 Data Analysis Planning (ENVS590) Department of Environmental Sciences, Emory University  
2015-19 Summer Institute for Training in Biostatistics (SIBS), Emory University
- 2016 Featured Speaker & Panelist, Flint Water: What Happens When Regulations Fail? Center for Global Safe Water, Rollins School of Public Health, Emory University, March 23, 2016
- 2015 GIS Day Program, GRASP, Centers for Disease Control
- 2011-16 Introduction to Public Health Surveillance (GH/EPI 515), Instructor: Phillip Brachman, Emory University. “Geographic Information Systems in Public Health Surveillance”. April 19, 2011; April 24, 2012; April 23, 2013; April 2014, April 2015, March 22, 2016
- 2012 GH560: Monitoring and Evaluating Global Health Programs. Dr. Claire Null, Emory University. October 3, 2012
- 2011 Geographic Information Systems and Digital Mapping (ENVS 385), Emory University. “Applications of GIS for Epidemiology”. February 17.
- 2010 Fundamentals of Cartography and Geographic Information Systems (ENVS250), Emory University.

- “Applications of GIS for Ecology and Epidemiology”, October 9.
- 2010 Joint Biostatistics and Bioinformatics Departmental Seminar and Epidemiology Graduate Student Seminar: Adventures in Eco-epidemiology: Spatial Patterns of Schistosomiasis Infection and Intermediate Host Dispersal, September 30
- 2008 Centers for Disease Control Epidemic Intelligence Service Discussant. “Ecological Pattern Detection of Infectious Diseases” October 12.
- 2007 Landscape Ecology of Anopheline Mosquitoes in Macha, Zambia, JHSPH Postdoctoral Fellows Seminar Series. September 25.

---

## Research Interests

Eco-epidemiology of vector-borne and zoonotic diseases, landscape ecology, parasite ecology, temporal and spatial patterns of health & diseases, infectious disease epidemiology, vector dispersal, waterborne diseases, neglected tropical diseases, healthcare accessibility

---

## Professional Activities

### Professional Memberships:

American Society of Tropical Medicine and Hygiene (2002-2019)

### *Manuscript Reviewer*

American Journal of Tropical Medicine and Hygiene • Journal of Medical Entomology • Malaria Journal • International Journal of Health Geographics • Tropical Medicine and International Health • Scientific Data • PLOS-Neglected Tropical Diseases • Preventing Chronic Disease • Parasites & Vectors

**Guest Editor** - PLOS-Neglected Tropical Diseases

**Grant Reviewer** –2009 STEREO II programme "Support to the Exploitation and Research of Earth Observation data". Belgian Earth Observation Programme. Belgian Science Policy Office. Wetenschapsstraat 8 rue de la Science, B-1000 Brussels

### Departmental Service

- 2019 Public Health Informatics Curriculum Committee  
 2019 Speaker: Lunch & Learn - Plagiarism

### Public Health Service

- 2020-present Steering Committee, Geospatial Project Co-chair, Spatial Epidemiology Team Lead, Georgia Department of Public Health-Emory University COVID-19 Collaboration

---

## Research Positions

- 2010- 2011 **Postdoctoral Researcher.** Dr. Kyle Steenland, Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA  
 • PFOA Exposure and long-term health outcomes
- 2008- 2013 **Postdoctoral Research Fellow.** Dr. Lance Waller, Department of Biostatistics and Bioinformatics, Rollins School of Public Health, Emory University, Atlanta, GA  
 • Spatial Ecology of Infectious Diseases: Spatial and temporal pattern analysis of Buruli Ulcer (Ghana); Predictive modeling of anopheline mosquito potential niches; Spatial risk

- modeling of *Ascaris* infections in Bolivia; Assessment of fecal exposure pathways in low-income urban settings; Beach conditions related to turtle nesting in Florida
- 2006-2008 **Postdoctoral Fellow.** Dr. Gregory Glass, Department of Molecular Microbiology and Immunology, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
- Malaria Vector Ecology (Zambia) - Larval mosquito collection, rearing and identification (morphological and pcr). Remote sensing duties include imagery (QuickBird, LandSat, ASTER) rectification, processing, classification. Application of topographic indices and hydrological modeling derived from SRTM and ASTER imagery to predict water pooling locations and probable larval habitats.
- 2001-2006 **Graduate Research Assistant.** Dr. Uriel Kitron, Department of Veterinary Pathobiology, University of Illinois, Urbana, IL
- Schistosomiasis (Kenya) - Spatial data (human demographic, infection & water contact; snail population & infection; environmental) collection, processing, management & analysis. Satellite imagery (Ikonos, LandSat, SRTM) processing and analysis. Integrated snail data with satellite imagery to create a dispersal model.
  - Lyme Disease - Tick collection (dragging for nymphs & larvae; collection of adult ticks during annual deer hunt), mouse ear biopsies, animal trapping, spatial database support
  - Lacrosse Encephalitis: Animal Trapping and blood sample collections
  - Malaria (Kenya) – Spatial analysis consultant
  - Chagas – Database advisement, satellite imagery processing support (Ikonos & Quickbird)
  - West Nile Virus – Calculating mosquito infection indices
- 2000-2001 **Graduate Research Assistant.** Dr. Randall Singer, Department of Veterinary Pathobiology, University of Illinois, Urbana, IL
- Bovine Bluetongue Virus - Prepared blood samples, conducted AGID testing, acted as geographic information systems support for the lab, and developed and maintained research archive.
- 1996 **Student worker.** Dr. Brain Butler, Center for Archaeological Investigations, Southern Illinois University, Carbondale, IL: American Midwest archaeology
- Artifact processing
- 1995-1996 **Undergraduate Research Assistant.** Dr. Michael Parrish, Northern Illinois University, Department of Biological Sciences: Oligocene paleoecology of Badlands National Park (Fossil preparation and identification) and tetrapod evolution and systematics (Scan electron photography of teeth)

## Other Research Activities & Collaborative Research Projects

- 2020- present J. Michael Bryan, MPH, PhD, Director of Maternal and Child Health Epidemiology Division of Health Protection/Epidemiology Section/Maternal and Child Health Epidemiology Unit, Georgia Department of Public Health
- Provided assistance in choosing, interpreting, and making action recommendations for spatial and spatiotemporal analyses of geocoded COVID-19 case data
- 2011- present Dr. Thomas Gillespie, Department of Environmental Studies, Emory University, Atlanta, GA
- Disease ecology of rabies in Costa Rica
  - Chimpanzee health and waterborne diseases: Statistical and database management support
  - Spatial Heterogeneity of Childhood Enteric Infections and Growth Parameters in Madagascar

- 2017- present Scott Richie, James Cook University, Cairns, Australia
- Mosquito dispersal Pathways in suburban Cairns, Australia
- 2016- present Jessica Fairley, Emory School of Medicine, Atlanta, GA
- Childhood Leprosy and Schistosomiasis in Brazil
- 2019 Lauren F. Collins & Monica M. Farley Department of Medicine, Emory University School of Medicine, Atlanta, GA, USA; Georgia Emerging Infections Program, Atlanta, GA, USA
- Emergence of Clonal Invasive Nontypeable *Haemophilus influenzae* in HIV-positive Black Men Who Have Sex with Men in Metropolitan Atlanta, 2017–2018
- 2015-2017 Uriel Kitron, Department of Environmental Studies, Emory University, Atlanta, GA
- Metropolis, Migration and Mosquitoes: Historicizing Health Outcomes in São Paulo, Brazil
- 2015 Thomas Burkott, James Cook University, Cairns, Australia
- Flight patterns of *Anopheles farauti* in the Solomon Islands
- 2015-2016 Neela Goswami, School of Medicine, Emory University, Atlanta, GA
- Spatial Variation in Tuberculosis Patterns and HIV Co-infections in the Atlanta Metro Area
- 2014- 2017 Janet Cummings, Department of Health Policy and Management, Rollins School of Public Health, Emory University, Atlanta, GA
- Accessibility of Pediatric Psychiatric care in the United States
- 2013-2015 Dr. Richard Reithinger, RTI International.
- Malaria surveillance in Zanzibar
- 2010-2012 Adela Castello, Department of Public Health Sciences, Faculty of Medicine, University of Alcalá, Madrid, Spain
- Environmental pollution and associations with birth defects - geographic information systems and spatial statistics support
- 2010-2012 Dr. N. Kyle Steenland and Dr. Stefanie Ebel Sarnat, Department of Environmental Health, Rollins School of Public Health, Emory University, Atlanta, GA
- Spatial patterns of emergency room visits: Geographic information systems and spatial analysis
- 2009-2011 Paul Howell, Malaria Branch, Centers for Disease Control, Atlanta, GA
- Predictive modelling of anopheline mosquito potential niches
- 2009-2010 Dr. Christine Moe, Department of Global Health, Rollins School of Public Health, Emory University, Atlanta, GA
- Spatial risk modeling of *Ascaris* infections in Bolivia
  - SaniPath: Assessment of fecal exposure pathways in low-income urban settings – Geospatial analyst and statistical support
- 2001- 2006 Dr. Anna Schotthoefer, Department of Veterinary Pathobiology, University of Illinois, Urbana, IL
- The effects of environmental conditions on parasite transmission and amphibian survival and development – GIS support, laboratory aid
- 2000-2002 Dr. Connie Austin, Department of Infectious Diseases, & Michael Arbise, Tuberculosis Division Illinois Department of Public Health, Springfield, IL
- Tuberculosis – spatial data processing & statistical testing
  - West Nile Virus – Initial outbreak response including map preparation, avian case data management & spatial data processing
  - St. Louis Encephalitis (Historical) – Human case data management, spatial data processing
- 1995 Independent Student Research: Positional Behavior of *Cebus capucinus*, Costa Rica – Dr. Suzanne Walker, Humboldt University, CA
- Tracking and observing non-human primates (*Cebus capucinus*, *Alouatta palliata*)

## Current Research Support

---

05/01/20-04/31/23      NIH National Institutes of Health      Jessica Fairley (PI)  
**Identifying Risk Factors for Leprosy Transmission Related to Co-infections, Unsafe WASH and Undernutrition Using Novel Serologic Multiplex and High Resolution Metabolomic Assays.**  
This project is an R01 to examine pathogen co-infections in relationship to WASH and nutritional status in Brazil.  
Role: Co-investigator (spatial epidemiologist)

## Completed Research Support

---

10/01/19-05/1/21      Emory Synergy Grants      Marcos Coutinho Schechter & Howard Chang (PI's)  
**Transportation Vulnerability and Diabetic Foot Ulcers Outcomes.**  
This project was a seed grant enabling our team to begin an across campus collaboration to begin a study examining the how transportation vulnerability is associated with the risk of foot ulcer amputations.  
Role: Co-investigator (spatial epidemiologist)

08/01/16-07/31/17      Emory Global Health Institute      Jessica Fairley (PI)  
**Addressing the Public Health Threat of Neglected Tropical Diseases in Brazil: Focus on Leprosy and Schistosomiasis in Children.**  
This project was a seed grant enabling our team to begin an across campus collaboration to begin a study examining the both aspatial and spatial factors associated with childhood infection with leprosy and schistosomiasis. \$34,052  
Role: Co-investigator (spatial epidemiologist)

8/15-8/16      NIHIAI (5K23AI116388-02)      Neela D Goswami (PI)  
**A Geospatial Approach to Target HIV-Infected Populations Poorly Engaged in Care**  
This K-award project was looking for spatial clustering of HIV and/or tuberculosis infected patients in Atlanta metro-area.  
Role: GIS mentor and Spatial Analyst

3/13-8/15      NIHIMH (5K01MH095823-04)      Janet R Cummings (PI)  
**Understanding Child Mental Health Services in the Public Safety Net**  
This K-award project was examining geographic accessibility to mental healthcare.  
Role: GIS mentor and Spatial Analyst

## Contributions to Public Health Policy

---

Provided assistance in conducting, interpreting and proposing locations for action based on spatial and temporal analyses of geocoded COVID-19 case data. J. Michael Bryan, MPH, PhD, Director of Maternal and Child Health Epidemiology, Division of Health Protection/Epidemiology Section/Maternal and Child Health Epidemiology Unit, Georgia Department of Public Health. 2020.

Developed training materials and conducted in-country training for the implementation of policy for the Pan American Health Organization-World Health Organization. 2019-2020, 2021 for targeted control of *Aedes aegypti* mosquitoes in Central and South America (22 countries).

Research on urinary schistosomiasis cited in Special Programme for Research and Training in Tropical Diseases. Scientific Working Group on Schistosomiasis, World Health Organization, Special Programme for Research and

Training in Tropical Diseases. Report of the Scientific Working Group Meeting on Schistosomiasis: Geneva, 14-16 November 2005. World Health Organization, 2007, 114 pages

Developed potential species distribution map models for the Centers for Disease Control. Dr. Mark Benedict, Division of Parasitic Diseases. These maps were used in day-to-day decisions about allowing the transportation and movement of potential disease vector mosquitoes insectaries between countries. 2009-2011. One model was subsequently used by World Health Organization advisors (Dr. Willem Takken and Dr. Steve Lindsay Steve when *Anopheles stephensi* became invasive in Africa).

---

## Research Recognition & Awards

---

### *Research & Academic Awards:*

- 2005 **C.A. Herrick Award Honorable Mention.** Annual Conference of Midwestern Parasitologists, Crawfordville, IN.
- 2004 **Dr. Joseph O. Alberts Award** - Outstanding graduate student achievement and research in veterinary medical science. College of Veterinary Medicine, University of Illinois at Urbana-Champaign.
- 2004 **TerraSeer's Annual Graduate Student Research Contest**
- 2004 **6<sup>th</sup> Annual Conference on New and Re-emerging Infectious Diseases 3<sup>rd</sup> place Poster Award** – Center for Zoonoses Research, University of Illinois at Urbana-Champaign.
- Fall 1995 **Dean's List**, Northern Illinois University

### *Travel Awards:*

- 2005 **Travel Award**, American Society of Tropical Medicine and Hygiene Meeting funded by National Institutes of Health/National Institute of Allergy and Infectious Diseases
- 2005 **Travel Award.** Application of disease models to long-term population data Workshop & The Ecology and Evolution of Infectious Disease Conference, Fort Collins, CO.
- 2003 **CSISS Workshop Scholarship** - "Accessibility in Space & Time: A GIS Approach". Center for Spatially Integrated Social Science.
- 2001 **University of Illinois Graduate College Travel Award** - Temporal trends of pediatric tuberculosis in Illinois. International Union Against Lung Disease North American Region, 6<sup>th</sup> Annual Conference.
- 2001 **IUATLD Poster Abstract Award** (\$100 registration waiver) - Temporal trends of pediatric tuberculosis in Illinois. International Union Against Lung Disease North American Region, 6<sup>th</sup> Annual Conference.
